## About Me

A passionate front-end software developer with 2+ years of experience in creating user-friendly and engaging web applications. Proven track record of working effectively in cross-functional teams, including designers, back-end developers, and project managers, to deliver high-quality software solutions. Currently pursuing an MTech in Data Science to further enhance my skills and knowledge in the field.

## Experience

**Publicis Sapient India**

Junior Associate Technology L1

Jan 2021 - April 2023

- Developed and implemented web design and structure using HTML, CSS, and JavaScript.
- Created responsive, secure, and scalable user interfaces.
- Wrote clean, efficient, and maintainable code optimized for performance and accessibility.
- Collaborated with back-end developers and other team members on testing and optimization.
- Managed project timelines, deadlines, and deliverables, reporting progress to project managers or clients.

## Education
